WORK EXPERIENCE

Adsum

London, UK

Front End Developer (Remote) | React, Next, TypeScript, Python, Flask, Material UI Jul 2022 - Sep 2023

- Implemented a user identity verification flow using the camera on Android, iPhone, Mac, and PC.
- Developed the entire front-end using Next, while migrating old live pages incrementally.
- Created the UI library using Next and Storybook, by collaborating with the UI/UX designer.

SKOOT

London, UK

Front End Developer (Remote) | Vue, Nuxt, TypeScript, Tailwind, GraphQL, Hugo Dec 2021 - May 2022

- Built 50+ UI library components based on designs, and published them on Storybook.
- Developed the dashboard, user profile, and payment pages of the application using Nuxt.
- Integrated checkout.com payment gateway, Formik form validations, and TailwindCSS.

Pabbly

Bhopal, India

Web Developer | HTML/CSS, JavaScript, PHP, CodeIgniter, jQuery, MySQL Jan 2019 - Dec 2019

- Developed the Email Automation project and integrated it into the Email Marketing application.
- Migrated users of the old automation system on the live server with zero downtime.
- Optimized MySQL queries, and introduced Composer for dependency management.

PROJECTS

Clearalist

clearalist.com

Full Stack Developer | Vue, Node, JavaScript, Express, MongoDB, AWS, Nginx, Figma Jan 2020 - Dec 2020

- Designed, developed, and deployed a SaaS application for bulk email verification.
- Integrated PayPal, added affiliate system, and user emails using SES, and implemented E2E testing.
- Implemented job processing using SQS queues to handle multiple file uploads reliably.

AutomateMyApp

automatemyapp.com

Full Stack Developer | Vue, Node, TypeScript, Nest, PostgreSQL, AWS, Nginx, Figma Jan 2021 - Sep 2021

- Designed, developed, and deployed a SaaS application for workflow automation.
- Integrated PayPal and added OAuth 2.0-based social login, webhooks, and UI-based workflow editor.
- Added 10+ popular services as integrations for users and deployed the application using AWS.
