WORK EXPERIENCE

Adsum

London, UK

Front End Developer (Remote) | React, Next, TypeScript, Python, Flask, Material UI Jul 2022 - Sep 2023

- Implemented a comprehensive user identity verification flow across multiple platforms.
- Migrated live pages to Next.js, improving site performance and maintainability.
- Developed a comprehensive UI library with UI/UX designers, standardizing design elements.

SKOOT

London, UK

Front End Developer (Remote) | Vue, Nuxt, TypeScript, Tailwind, GraphQL, Hugo Dec 2021 - May 2022

- Built 50+ reusable UI components based on design specifications, enhancing development efficiency.
- Developed key features like the dashboard, user profile, and payment pages using Nuxt.js.
- Integrated checkout.com payment gateway and Formik form validations, streamlining the flow.

Pabbly

Bhopal, India

Web Developer | HTML/CSS, JavaScript, PHP, CodeIgniter, jQuery, MySQL Jan 2019 - Dec 2019

- Led the development and integration of the Email Automation project, improving user workflows.
- Migrated users to the new automation system with zero downtime, ensuring a smooth transition.
- Optimized MySQL queries and introduced Composer for dependency management.

PROJECTS

Clearalist

clearalist.com

Full Stack Developer | Vue, Node, JavaScript, Express, MongoDB, AWS, Nginx, Figma Jan 2020 - Dec 2020

- Designed, developed, and deployed a SaaS application for bulk email verification.
- Integrated PayPal for payments and added an affiliate system, enhancing monetization.
- Utilized SQS queues for reliable job processing, managing multiple file uploads seamlessly.

AutomateMyApp

automatemyapp.com

Full Stack Developer | Vue, Node, TypeScript, Nest, PostgreSQL, AWS, Nginx, Figma Jan 2021 - Sep 2021

- Created a SaaS application for workflow automation, streamlining business processes for users.
- Implemented OAuth 2.0-based social login and webhooks, enhancing security and usability.
- Added integrations for over 10 popular services and deployed the application using AWS.
